

MITTAL DISTRIBUTORS

Engineered to Harness

Company Profile –

Established in the year 2001 in Dhule, Maharashtra province, with the vision to enhance and stimulate the use of alternative and sustainable sources of energy.

Since then we are recognised as one of the leading traders and distributors of LPG and CNG kits (alternative source for petrol and diesel) for automobile industry. We are the registered distributor of LOVATO Gas, a Vicenza, ITALY based LPG and CNG kit manufacturing company.

The creation of the revolutionary heritage was elevated with the introduction of Renewable and Sustainable Solar Energy Systems.

We serve as the support for Solar Product manufacturers and assemblers along with Solar EPC & Project Integration Companies. We procure the needs for the Solar PV raw materials from across the globe to meet the discrete needs of the Solar Industry in the country. The major products that we focus on are – Solar PV Cells, Back Sheet, EVA Sheets, Solar Modules, and Solar Inverters & Drives.

Apart from maintaining the supplies; The Solar EPC division in our company, provides the globalized Solar PV Project (Residential, Commercial, and Industrial) installation and commissioning services to our customers.
